Counting on Math

Help your child avoid the summer math slide and enable them to reach new math goals by signing them up for Counting on Math. A certified teacher will provide students with enriching, hands-on common core math activities to give your child the confidence they need to find success at the next level.

Grade: 2-4 | Day: Monday & Wednesday | Time: 8-8:50am | Date: July 9-August 8 | \$75

Algebra

Whether your child needs to expand their knowledge or keep their skills sharpened over the summer, this class is for them! In this class designed for students entering algebra, students will begin to develop necessary skills that will make algebra less challenging and more fun.

Grade: 6-9 | Day: Monday & Wednesday | Time: 9-10:30am | Date: July 9-August 8 | \$110

Geometry

This camp is designed to introduce students to the concepts they will encounter in their upcoming geometry class and will lay the foundation for success.

Grade: 7-10 | Day: Monday & Wednesday | Time: 10:30am-12pm | Date: July 9-August 8 | \$110

Writing Success

Whether your child considers writing to be a struggle or a joy, this class will help them achieve writing success! Students will respond to engaging prompts, explore a variety of genres, and most importantly, gain the confidence needed to tackle any writing task with ease!

Grade: 6-12 | Day: Tuesday & Thursday | Time: 9-10:30am | Date: July 10-August 9 | \$110

Reading and Writing Edventures

Whether your child excels at reading/writing or could use some additional help, this class will boost their performance. Fun activities are designed to improve reading/writing motivation, comprehension, self-esteem, and vocabulary expansion and literacy growth.

Grade: 1-3 | Day: Monday & Wednesday | Time: 9-10:30am | Date: July 9-August 8 | \$110

Grade: 4-6 | Day: Monday & Wednesday | Time: 10:30am-12pm | Date: July 9-August 8 | \$110

SOAR Study Skills

Great Lakes Educational Group is excited to introduce: SOAR® Strategic Learning Skills for College & Career Readiness with your child. A system of simple, student-friendly strategies to help students organize, study, and complete homework efficiently is the foundation for this program. *A \$40 book and material fee is due on the first day of class to Great Lakes Educational Group.

Grade: 7-12 | Day: Tuesday/Thursday | Time: 10:30am-12pm | Date: July 10-August 9 |

\$199 + \$40 book/material fee

SAT SUCCESS

SAT SUCCESS prepares students for all four sections on the SAT Test. Utilizing effective teaching methods and completing relevant weekly homework, students will learn the rules, strategies, and test-taking skills necessary for success.

Grade: 10-12 | Day: Thursday | Time: 6-9pm | Date: July 12-August 23 | \$349 + \$49 book/material fee

Creating Virtual Reality using CoSpaces Beginner

Come learn to create your own virtual reality world! We will be using CoSpaces, an online platform that enables the creation of virtual worlds and learning experiences. Working inside your browser, CoSpaces allows users to create, explore and experience their own VR creations using customizable building tools and 3D assets. Please bring your own device to use with the CoSpaces app downloaded. Materials fee of \$45 includes VR goggles to use, and take home after camp.

Grade: 3-8 | Day: Monday-Friday | Time: 9am-12pm | Date: July 9-July 13 | \$135 + \$45 materials

Grade: 3-8 | Day: Monday-Friday | Time: 9am-12pm | Date: July 16-July 20 | \$135 + \$45 materials

Bloxels Builder

You don't need to understand fancy code and own super expensive computer programs to make video games. All it takes is your Bloxels Gameboard, some blocks, a mobile device, and of course, your imagination! The sky's the limit! You can be a dragon, climbing a volcano while fighting ice cream monsters! Or, a zebra-man escaping from a zombie-filled zoo?! Anything's possible with Bloxels. Please bring your own device with the Bloxels app downloaded.

Grade: 3-8 | Day: Monday-Friday | Time: 1-4pm | Date: July 9-July 13 | \$135 + \$45 materials

We're Not Brain Surgeons, But We Can Explore Neuroscience

Have you ever wondered how your brain works to control your body? In this camp we will explore the science of the brain using tools from Ann Arbor's own, Backyard Brains Neuroscience collective. We'll see how muscles are controlled, and how easy it is to control someone else's muscles. We'll build and use a robo arm controlled by the muscles in our hand and arm. Most importantly, we'll have fun experimenting with the science of the nervous system in a safe and harmless way. Who knows? Maybe you'll decide to become a brain surgeon.

Grade: 3-8 | Day: Monday-Friday | Time: 1-4pm | Date: July 16-July 20 | \$135 + \$45 materials
